The Punk Star

1

THE PUNK STAR

No more heroes they said
It's time to get out of bed
And dye my hair infrared
All I want is to be ahead

Make me make me the punk star
I deserve to be

Burn cars smash windows
Pogo all night drink beer
Safety pins zipped pants
God saved the queen
And the facist regime

Make me make me the punk star
I deserve to be

Sid never gave up
While Nancy stood up
Give me back that public image
That city ain't a village
Let's turn to guerilla
We better not taste like vanilla

Make me make me the punk star
I deserve to be

What I Know So Far

2

WHAT I KNOW SO FAR

Encyclopedia got me to Maria
And Wikipedia gave me amnesia
The billionaire in me
My cousin at first degree
You thought you'd be me
I realized I could be you

What I know so far
is in my guitar

It's been a long trip
That took me on that ship
Every song
On the tip of my tongue
Searching for truth
The fountain of youth

What I know so far
is in my guitar

Eye Contact

3

EYE CONTACT

Was I supposed to look away
When you reached me that day
I knew you wanted to play
I loved you already to my dismay

Eye contact
I cannot resist your attack
You keep me alive
Oh god i need to Take five

RISKY BUSINESS

I may be like riding between cars
Or getting caught behind bars
But Baby oh Baby
Please take the risk
Of walking with me

I may not be the one you're looking for
And the ride may not be the safest
But Baby oh Baby
Please take the risk
Of walking with me

Color Free

6

COLOR FREE

Neither black or white
My world is color free
You said gender fluid
Like any other squid

Pick your blue
I'll choose my pink
I'll be your shrink
As if it's just for you

Neither mat or glossy
My world is color free
You'll still be fun and clever
We'll be friends for ever

Dear penguins
Very best regards

too Many Humans

7

TOO MANY HUMANS

Yes! too many humans
And not enough souls

Get yourself together
Don't you want to be fair?
You are the divine
In human disguise

Way too many humans
And not enough souls

I'm closer than you think
I'll be there in a blink
I'll replace hell
Let me ring that bell

Let me ring that bell
Let me ring that bell
Let me ring that bell
Let me ring that bell

REVOLUTION ROMANCE

The revolution romance
It's ours an now let's dance
The revolution romance
Needs no cash advance

Did we really let them eat cake?
Were you already awake?
The revolution romance
Did not leave us any chance

We're responsible for our faith
Let make it ours with no meth

Smile like you are res

GUILTY PLEASURES

Stop saying no and walk my way
Don't you wanna play?
Too bad we missed each other
That was one way to end it
Thanks mate it's been fun

PUBLIC LIFE PRIVATE LIFE SECRET LIFE

Public or private
Your life's a secret
When we two met
I took it as a bet

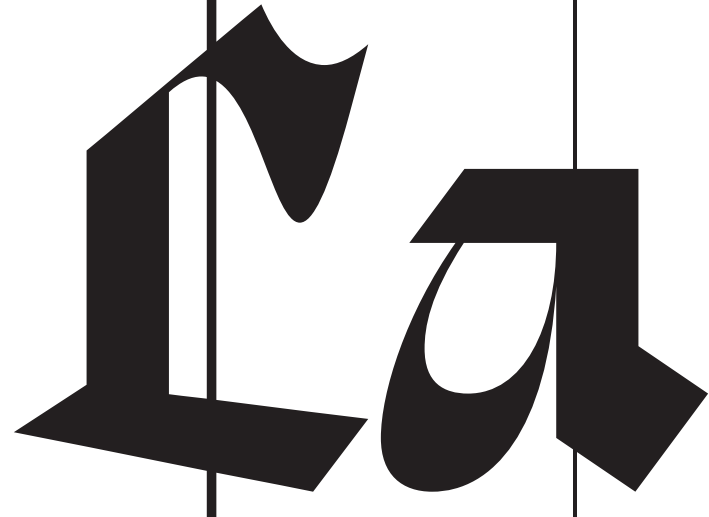

Just an accident not so extravagant
You seemed so flamboyant
Well, it was not your fault
As all is secured in your vault

Wishing you were nigh

Seven Days A Week

14

SEVEN DAYS A WEEK

You may be the most dangerous
But that's all good to me
You may be adventurous
Yes that's all fine with me

Don't stop don't stop
Monday to Sunday
Don't stop don't stop
I need a replay

You may be the most arrogant
But that's all good to me
You may be decadent
Yes that's all fine with me

Don't stop don't stop
Twenty-four hours a day
Don't stop don't stop
I need a replay

Algo Rhythm

15

ALGO-RYTHM

Picture me electronically
I'm not quite sure what I'm looking for
I'm way too emotionally unstable
When I'm thinking of you
I wanna share my dirty data

Let the Algo-rythm
Fill the void
For the humanoid
Clicks and stars
The algo-rythm will heal my scars

16

PLASTIC

I refuse my face
My need for a new pace
Is taking me to weird places

Let me explain to you baby
If my search for beauty
Is my main question
It is also my obsession

Only lobotomy
Will cure me
As my lips are getting fatter
And my pupils bluer

DIRTY DATA

Inaccurate and incomplete
Such as one two and one three
Inconsistent and outdated
I can't keep you posted
You cost me millions of dollars
We should move to the pole with the bears

Sweet sweet data
Lemme be your dirty data
Sweet sweet data
I wanna be your dirty data

Less

19

MORE THAN LESS

Hi there

The architect has left the house

No one will look after us

As if the planet was on fire

The desert took over

And trees are nowhere seen

Where have you been?

More than less

Is less is more

As if less was more

What a bore what a bore

Procrastination and connection
Can be a dangerous combination

Log off brother
Your scroll has eaten your brain

Log off my friend
1996 set the pain

Not about the prediction business
But a guaranteed pleasure-ness

Log off sister
Save your emotional palette

Log off my friend
1996 made you less human

Rich bastards beware
New speculation is old capitalism
So, everyone out there
It is now time for activism

Music's our weapon
And lyrics our bullets
Rich bastards beware
We need no child care

Don't let it be
And fight for your rights with me
Neither Rastafarians nor skinheads
We will not be waiting in our beds

MOCKERY DEMOKRACY

You don't need to follow me
The unicorns are out in the sea
And the hippos are swimming hidden
They'll eat you live like a kitten

Do you really need to understand
For whom I stand
Follow me brother
And you will see later

Mockery democracy
You got me, ain't no funny
Mockery democracy
I'll be back with my army

LIMITLESS (sad song)

The sky was the limit
But clouds got in the way
And as beyond became reachable
My love for you was drifting away

Nevertheless mikado
Was our motto
Slowly emptiness
Replaced limitless

And If I can confess
Limitless is no largesse
If I can confess
Limitless is a mess

Limitless

Feed Me

25

FEED ME

Vegan or vegetarian
You're my sweet sectarian
For sure I don't mind
Where do I sign?

Because I am
Hungry for you
I'm hungry for you
Day and night
Feed me with a bite
Hungry for you
I'm hungry for you
Night and day
Even for money

Cooked or raw
Your love is so so
You left me in doubt
I'd better check out

Because I am
Hungry for you
I'm hungry for you
Day and night
Feed me with a bite
Hungry for you
I'm hungry for you
Night and day
Even for money

Clashes with your mission
Your religion makes me sick
I'd rather play with my joystick

Division is your decision
But not my condition
Mario my hero is antigravity
Brother Luigi will help happily

PC for all? really?

HIGH/LOW

Give me a break bro
Your high is your low
If you think your credit's zero
I'll make sure you go below

Higher and lower
Lower and higher
Rather than be your controller
I'll be your promoter

Get loose sis
Your low is your high
Wanna say bye to that bad guy?
It's time to get rid of that black tie

Higher and lower
Lower and higher
Rather than looking over your shoulder
I'll be your promoter

Debbie's Song

DEBBIE'S SONG

Hang out on a Friday night
French kissing is no fight
Oh no, who dumped who?
Oh Debbie is that you?

For French kiss here's some tips
Lock your eyes and lick your lips
Take it slow and close your eyes
Now you're there no more lies

Clubbing on a Saturday night
French kiss in the light
Oh well, if only I knew
For you it's no taboo

For French kiss here's some tips
Lock your eyes and lick your lips
Take it slow and close your eyes
Now you're there no more lies

Degrees of Love

30

DEGREES OF LOVE

Anguish was my belief
Until I came to grief
Sorrow is my loneliness
For all that sadness

Madness is my only plea
I love you baby do not leave me

I tried an intimate discourse
But insomnia got me of course
I have that burning desire
That deep friendship could not fire

Madness is my only plea
I love you baby do not leave me

All my sincere affection
Went from love to attention
Deep affection could not put me at rest
As my liking interest was my best

Madness is my only plea
I love you baby do not leave me

And this youthful zeal
Passionate love could not fill
I thought that this deep attachment
Was just Infatuation for detachment

Madness is my only plea
I love you baby do not leave me

Excessive love may be bewitchment
Absurd fondness is not a commitment
Submission as you know baby
Is love sickness as you see

Madness is my only plea
I love you baby do not leave me

Reboot

32

REBOOT

For some you're a whiz
And for others you're a fizz
It's not about a blackout
I know you need a boost
Are you planning a reboot?

Reboot once and
Reboot twice
Until you crash
As fast as a flash

And if your drive is full
I cannot be your fool
So if your bytes
Are your new fights
Reboot seems to be right

Reboot once and
Reboot twice
Until you crash
As fast as a flash

(bridge)
Disconnect and reconnect
Eject and detect
Next time I'll inspect
Sure it will be perfect
My way to be correct

Reboot once and
Reboot twice
Until you crash
As fast as a flash

Waiting for the triple A
Feels good being AFK
With AP there's no delay
Fed up with GTA

Hoping to beat the final boss
Deserved to be ganked
Only in God mode
You'll see no noob

If you ask for RPG
Let me explore the sandbox
Nothing to do with my XP's
Can't wait for the next PVP

M-O-B-A and D-O-T-A
If I run away today
Find out what it means to me
Before I hit my alt-key

Hit me baby
Hit me baby
Only with my alt-key

Open these doors for me

LOVE VIRUS

The temperature of my body
Is way too high to cool instantly
This love virus is dementia
No medicine it's no bacteria

I wished a shot could protect me
Infection has taken all over me
This love virus is dementia
And this one is not rubella

High fever and swollen glands
Oh my friend there's no treatment
This love virus is dementia
And you got me with your saliva

Smaller than a bacteria
Stronger than dementia

NO REGRETS

It was just a a bowl of cherries
And your portrait that I used to cherish
You're no longer the handsome animal
When we dated at the mall

I have no regrets
Just a few sunsets
I'll forget your silhouette
No, no regrets

I am living in the present
Not in the past or in the future
I live day by day so I don't care
I am here and you are there

I have no regrets
Just a few sunsets
I'll forget your silhouette
No, no regrets

The title 'No Regrets' is rendered in a large, bold, black, gothic-style font. A horizontal line passes through the middle of the text, creating a visual effect of the title being split or cut in half. The letters are thick and have sharp, pointed serifs.

BARRY

I kind of bleed up there
To make you feel what's in the air
Night after night you need magic
Right in my stomach no panic

Witty lyrics, moving lyrics
A lot of anger, a lot of rhythm
I like that I like that
But how long can this last

Take me back to Copacabana
One last time amanhã (pronounce amaña)
Together you and I
Until the sun rises amanhã (pronounce amaña)

Don't go too far into this
Way too personal to dismiss
Mandy was so honest and vulnerable
Too much trouble I'm so miserable

Take me back to Copacabana
One last time amanhã (pronounce amaña)
Together you and I
Until the sun rises amanhã (pronounce amaña)

The Positive Song

40

THE POSITIVE SONG

Everything is all right
This song will change your life
And open big doors for you
Your thoughts become galactic
Universal and microscoped

This is the positive song
The way you deserve it
You need to go on right now
Hold on to your faith
This is the positive song

Baptized into consciousness
Colors are oozing like lava
This is going to be intense
Maintain sustain and balance
The key to everything

This is the positive song
The way you deserve it
You need to go on right now
Hold on to your faith
This is the positive song

People can get along
With unity and harmony
Sing for your life
Mix guitars and congas
Celebration of the mantras

This is the positive song
The way you deserve it
You need to go on right now
Hold on to your faith
This is the positive song

Everything you see is in the past
All my souvenirs are here to last
When I see you I feel so present
With you I cannot be absent

Love is here and
Love is there
Stop and stay with me
Check your west and
Check your east
Hold on don't leave me

This is just for you
Nobody else only you
The sea level may be rising
The moon will shine as long as I can sing

Love is here and
Love is there
Stop and stay with me
Check your north and
Check your south
Hold on don't leave me

The past is all about confusion

MODERN LOVE

A lifetime of bliss
Is what you thought you wished for
You chose to be on my side
Hearts required vision aside

A modern love
I wanna be proud of
A modern love
Do I need a new doll?

You're my soul mate
Since our first date
It looked good on you
Like this eternal tattoo

A modern love
I wanna be proud of
A modern love
Do I need a new doll?

A work of art will never replace
A modern love at a fast pace
Any color any day for the rest of my life
You make my world free from strife

Too Many Tears

46

TOO MANY TEARS

When part of my emotions
Don't get me wrong, are in motion
My gentle flow goes lacrimal
Only because I'm no animal

It's secretion
All about muscular tension
I'll take a deep breath instead
I'm not yet brain dead

Just an emotional episode
The one that helps to unload
Too many tears
Time to free these fears

Tears in the morning
A simple warning
Tears in the night
It'll be alright

Blind Dates

BLIND DATES

They told us that love blossoms
At the tip of our fingers
All humans are parametrized
The business of love is optimized

Blind dates blind dates
It all dictates
What I get from you
What you will get from me

People like you and people like me
Let's all agree don't be sorry
Because in reality our future is written
I believe emojis are in the way

Blind dates blind dates
It all dictates
What I get from you
What you will get from me

Content based and compatibility
You're my target item
I believe love is logical
You and me theoretically

Heaven shall wait

Heaven shall wait
But some celebrate

Those who predicate

Brutalist Love

49

BRUTALIST LOVE

I love you raw concrete
Your béton brut is no cheat
I can see what are you made of
Transparency over proportion

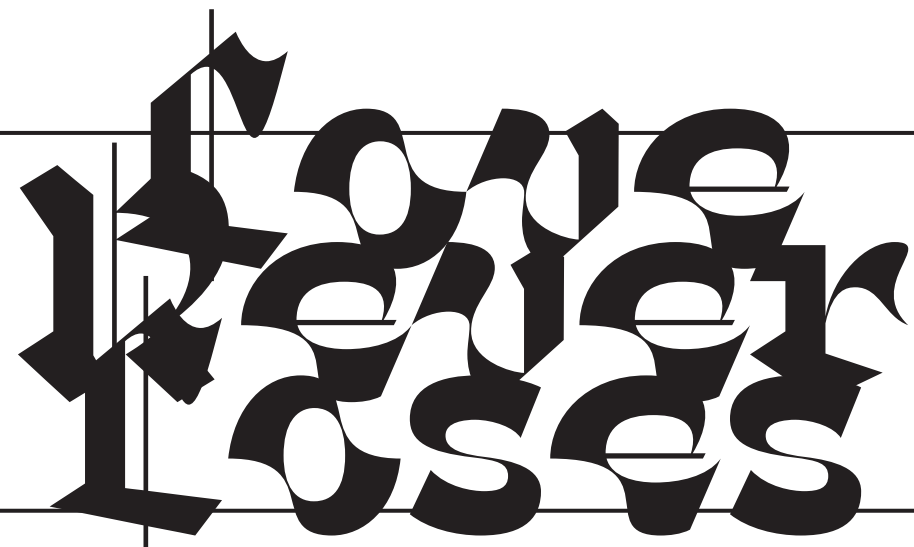

You're bold and confrontational
My favorite qualities
You manifest the future
All you want is to be seen as progressive

Oh brutalism
Fill me with your modernism
Forget functionalism
Oh brutalism

Natural ventilation
And restrained ornamentation
You know my orientation
Fundamentally a tropicalist

Oh brutalism
Fill me with your modernism
Forget functionalism
Oh brutalism

(bridge)
I think in concrete
As abstract as it can be
I love you
Your ghost is haunting me

The title 'Love Never Loses' is rendered in a bold, black, stylized font. The letters are thick and have a slightly irregular, hand-drawn appearance. The words are stacked vertically: 'Love' on top, 'Never' in the middle, and 'Loses' at the bottom. To the left of the text, there are several vertical lines of varying lengths, resembling a musical staff or a graphic element. The entire title is centered horizontally between two horizontal lines that extend across the width of the page.

Love Never Loses

50

LOVE NEVER LOSES

Love never loses
There's no excuses
Not a feast
Just another beast

Another beast another beast another beast

Love never loses
Often talked about
And never seen
I wanna be fooled again

Fooled again fooled again fooled again

Love never loses
Drop a wish on a falling star
Close our eyes tightly
And hope for a new reality

Reality reality reality

All in good harmony
Yes Kara your tech is easy
A microphone and a TV
Ok Kara? Kara you're OK

As music subcodes
And my feelings just encode
Our special track in the key of your choice
Karaoke roulette only with your voice

Oh Kara is that ok if you sing along with me?
All in good harmony
Yes Kara your technology is easy
A microphone and a TV
Ok Kara?

The magic of music
Vocalizing in the wild
With disco lights and tambourines
Kara now my marathon queen

Roller- coaster Baby

ROLLERCOASTER BABY

Today I'm in a good mood
Yesterday I was hiding in my hood
But don't get fooled
My life is all good

I thought I was
Existentially exhausted
But in fact I'm
Essentially a positive

And if things go crazy
It's not because I'm lazy
In general I'm busy
Last night was thick and hazy

I thought I was
Essentially a positive
But in fact I'm
Existentially exhausted

If you see me thinking
I'm only meditating
It's helping me wondering
How to be convincing

I thought I was
Existentially exhausted
But in fact I'm
Essentially a positive

(bridge)

Don't look at me as if
I was the only one around
To ride rollercoasters
Gravity always brings me back

A Hundred percent Real

63

100% REAL

Get out of here
You are simply
A seventy-two DPI porn star
You are also a liar

You promised
A Grand Opening
And a Royal Therapy
For me only

Not only an impersonator
You are also a terminator
If you need to become a celebrity
You'd better avoid me

At one hundred percent real
One false move
Can get that needle
Out of the groove

From LA to Pasadena
And back to West Hollywood
You were the reason for my quest
I send you all my best

REVERSIBLE DESTINY

Eternal life is a possibility
In search for immortality
Living too comfortably
A perpetual state of instability

Reversible destiny
The one and only

Prolong life indefinitely
In absence of symmetry
Death is old fashioned
Re-evaluate the passion

Reversible destiny
The one and only

Constantly recalibrate
Adapt and adjust
Emotionally and physically
Testing the limits

Reversible destiny
The one and only

Don't Get Me Wrong

66

DON'T GET ME WRONG

Help I'm so late
To read your debate
I listen to your voice
That gives no choice
Your words are on the spot
Without one single blot

Don't get me wrong
I'm here and for long
Don't get me wrong
I know where you belong

The way you walk
Is the way you talk
And the way you dress
Baby there's no mess
The way you look
Far from any textbook

Don't get me wrong
I'm here and for long
Don't get me wrong
I know where you belong

(bridge)
Don't get me wrong
Not the rock generation
Don't get me wrong
Not the punk explosion

Don't get me wrong
Not the grunge implosion
Don't get me wrong
Not the hip hop erosion

New Blood

NEW BLOOD

Offline offline offline
Don't tell me I got IAD
I am not gonna go offline

Do you think it's just an idea?
Do you want to get rid of me?

I need you as much as my IP
We need to face interface
Happy to meet you on HTTP

Do you think it's just an idea?
Like my augmented reality?

My life in real is gone gone
There is a new born cyber in me
Don't you want to see me?

Do you think it's just an idea?
See me in heterotopia

Digital data my new blood
All about feedback loops
And my online reputation

(bridge)
For sure I'll be the past
But not so fast
Microchips keep me alive
Interconnected in my drive

Hello

Again

68

HELLO AGAIN

You're the one who I saw in the mirror
Hello again my friend
I thought that you were gone forever
You're back and I like it

Hello again hello hello
Hello again

This reflection is better than speculation
Back in the days
I had no expectations
You're back and I dig it

Hello again hello hello
Hello again

Sixteen again and naive for long
No blind spot equal my angle of incidence
Lucky there's no interference
You're back and I love it

(bridge)

You attracted my attention
I could not take my eyes off you
I hope to compensate for distortions
Really this whole thing is about you
